

What You Will Learn

This is a program about real dentistry for real people by a real dentist! Dr. Glazer will present a potpourri of materials and techniques that will make your day at the office easier, more productive and fun! Your entire dental team will benefit from learning about the latest products and benefits provided for you and your patients. Dr. Glazer writes a monthly column by the same title for AGD Impact magazine, and reviews new products and materials on a regular basis for his column.

Topics include:

- Curing lights ... to light up your life (dental).
- Adhesives...a sticky subject made simple.
- Composites for esthetic fillings not just white ones.
- Impression materials...it's true...first impressions are important.
- Provisional materials...temporaries should look great.
- Burs...so many and so little time.
- Endodontic instruments...getting to the root of the matter.
- Cements...that which holds the relationship together.
- Tissue retraction and fluid control...essentials of clear fields.
- Biofilm treatments...getting the "ick" out of water lines.
- Matrix bands for perfect, predictable contacts...contact perfect every time.
- Whitening systems...that work.
- Oral cancer detection...dentists can save lives!
- Loops, instruments, equipment potpourri
- And more...
