Produced by the Kentucky Injury Prevention and Research Center, as bona fide agent for the Kentucky Department for Public Health. November 2018. Data source: Kentucky Death Certificate Database, Kentucky Office of Vital Statistics, Cabinet for Health and Family Services. This report was supported by Cooperative Agreement Number 5 NU17CE002732-04-00, funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Centers for Disease Control and Prevention or the Department of Health and Human Services.

Counties are listed in alphabetical order. If a county name is absent from this list, no deaths were reported during this period.

Data are provisional and subject to change.

Drug overdose deaths were identified as deaths with an underlying cause of death in the following ICD-10 code range: X40-X44 (accidental/unintentional drug poisoning), X60-X64 (suicide by drug poisoning), X85 (homicide by drug poisoning), and Y10-Y14 (drug poisoning with undetermined intent).

Opioid involvement determined by the presence of one of the following ICD-10 codes in the supplemental cause fields: T40.0, T40.1, T40.2, T40.3, T40.4, T40.6.

Numbers <5 were suppressed according to state data release policy.
