

STUDENT EVALUATION OF CLINICAL FACULTY TEACHING

██████████ CLERKSHIP - ██████████

2004/2005

(Comments)

Faculty Name: ██████████

I enjoyed the learning experience-thank you.

██████████ is an excellent physician and teacher. One of the most knowledgeable doctors I have been with. He is very good at explaining rationale for decisions. He is great with students. He stimulated me to learn and to think independently.

██████████ has a great attitude and was very enthusiastic about teaching. He challenged me to thoroughly think through my assessment and plans.

██████████ is an excellent teacher and stimulates learning. I was encouraged to read by ██████████ and his approach worked well for me. ██████████ is very knowledgeable, yet he can be intimidating for this same reason. Some more "high-strung" students may be rattled by his questioning.

██████████'s residents gave me less opportunity to see patients and perform a complete history exam than I was given in other clinics. ██████████ did explain medication choices and reasoning in his decision process.
