New Faculty

Dr. David DiSantis

Dr Edward Escott

Two new physicians have joined the UK radiology faculty this month. Dr. DiSantis, formerly at Wake Forest University is now a member of the Abdominal Radiology Division. Dr. Escott, the new Division Chief of neuroradiology comes to us from the University of Pittsburgh.

New Staff Members

Nine new employees joined UK Radiology recently. **Jane Margaret Aguhob** is a Patient Relations Assistant, **Brian Gifford**, a new Radiology Attendant, **Lori Klawoon**, VIR Nurse, **Tammy Lancaster**, VIR Nurse, **Troy Langrell**, Radiology Attendant, **Ali Majdalawi**, Radiology Technologist, **Beth Radmanesh**, Radiology Nurse, **Alison Salyer**, Patient Service, and **Rachel Walter**, Financial Counselor.

A warm Wildcat welcome to the newest members of the UK Radiology family.

Newspaper Applause UK Radiologist

Congratulations to Dr. Abdunnasser Alhajeri for the Herald-Leader's article detailing his wonderful work that enabled a paralyzed two year old to walk again. Follow this link to read the heartwarming story that should make all of us at UK Radiology proud: [Click here.](#)

Inside This Issue:

New Radiologists	1
New Staff	1
Dr. Alhajeri	1
New Peds Program	2
Holiday Banquet	2
Dr. Rexroad's Poem	2

From Dr. David DiSantis (new editorial director): This abbreviated December issue of the Radiology Reporter wishes the entire UK Radiology family a joyous and fulfilling Holiday Season, brimming with whatever makes you happiest.

New Pediatric Training

The Division of Pediatric Radiology found a novel way to introduce its new training program for technologists. Baby shower-themed invitations announced the unveiling of “Basic Building Blocks for Pediatric Imaging”, where punch and cupcakes set a festive tone for January’s new arrival. “We’re making a cultural change to encourage a learning environment in our department,” noted Karen Rogers, Radiology Education Coordinator. Attendance will benefit staff members’ annual performance evaluations, as well as accruing ARRT and Kentucky Continuing Education credit.

Technical managers can expect calendar reminders, with flyers posted in all modality areas detailing upcoming presentations. Questions about this exciting new program can go to Jessica Cornett (pager 330-8116) or Karen Rogers (pager 330-1827).

L to R: Karen Rogers, Jessica Cornett

Annual Holiday Banquet

UK Radiology was dressed in its finest and strutting its stuff at this year’s Holiday Gala. Everyone’s plate was heaping after a visit (or more than one) to the 20 foot long buffet, but we weren’t too full to fill the dance floor.

Dr. Oates handed out the top-shelf door prizes throughout the evening, with the final—the biggest tower of goodies—a welcome inducement to stay late with the party-hardy crowd. Dr. Rexroad proved that, yes, Virginia, there is a PowerPoint at the Holiday party: it was hilarious, and Santa may never be the same after his visit to the E.D.

Good people having a good time. What a great way to share the Holiday Spirit.

How the Grinch Stole Radiology

By: Dr. Jason Rexroad

Adapted from Dr. Suess’ How the Grinch Stole Christmas

Every tech
Down in Techville
Liked radiology a lot...

But the Grinch
Who lived just north of Techville
Did NOT! [click here to read the rest of the story](#)
