

*Heart to Heart Study:  
Touching the Hearts and Lives of Congestive  
Heart Failure Patients and Caregivers*

Researchers in the College of Nursing are investigating educational methods to assist patients and families in the management with congestive heart failure.

If you or your spouse/"significant other" have heart failure and are interested in learning more about how to care for heart failure together please call (800) 896-8066 and ask for "nurse Gina concerning The Heart To Heart Study".

Participating in the research study may involve some travel to the University of Kentucky.

You will be compensated for your assistance in the study.
