

Functional Knee Assessment Study

Researchers at the University of Kentucky College of Health Sciences are conducting a study to evaluate the relationships between various functional knee assessments and self-reported function.

You may be able to participate if you:

- are between the ages of 18 and 60
- are healthy with no history of lower limb surgery

You may **ALSO** be able to participate if you:

- have had knee surgery within the last 6 months
- OR**
- are planning to have knee surgery

You may **NOT** be able to participate if you:

- have hip or ankle pain
- have injured your hip or ankle within the last 6 months
- have had surgery on both of your knees

Research Investigator: Amber Radtke
