

Special Issue Brain Injury License Plates

The Brain Injury Association of Kentucky (BIAK) is partnering with the Spinal Cord & Brain Injury Research Center (SCoBIRC) at the University of Kentucky Chandler Medical Center to create and sell a special issue brain injury license plate. This endeavor will **raise awareness about brain injury** in Kentucky and provide some additional funding. To be successful, we need your commitment to pre-order the special issue license plate. The state Motor Vehicle Division will consider the request for the special issue license plates only after 900 pre-orders are received.

If you are interested, don't hesitate to contact Margaret Millner at (502) 493-0609 x221 for more information and an application. There is a \$30 fee per plate. All applications and checks will be held until 900 pre-orders are received. In the unfortunate event that this number is not reached, the applications and fee will be returned.

This is a **unique way to support individuals with brain injury** and raise awareness in our state. One in five Kentucky families reports they have at least one family member with a brain injury. Help us help all of these families by supporting a special Brain Injury license plate.
