

CONTACTS FOR CLINICAL TRIALS

Unit/ Website	Phone/Fax	Description/Services
University of Kentucky Research www.research.uky.edu Grants Bulletin http://www.research.uky.edu/faculty/bulletin.html	859/257-5294 859/323-2800	Primary Resource for faculty, staff & students regarding research and economic development. Provides information regarding the VP and Assoc. VPs for Research, Research Support Units, Centers, Core Facilities, Publications & Research news.
Office of Sponsored Projects Administration (OSPA) www.research.uky.edu/ospa/	859/257-9420 859/323-1060	OSPA is responsible for administering extramural grants and contracts awarded through the University of Kentucky Research Foundation. OSPA provides contract negotiation, advice and assistance with budget preparation and other administrative requirements of proposals; review, negotiation and acceptance of awards; information regarding sponsor policies and regulations; preparation of subcontract documents.
Office of Research Integrity (ORI) IRB Administration www.research.uky.edu/ori/	(859) 257-9428 (859) 257-8995	ORI provides support for seven federally mandated review committees: four Medical and one Nonmedical Institutional Review Board (IRB), the Institutional Animal Care and Use Committee (IACUC), and the Radioactive Drug Research Committee (RDRC). ORI also supports the institution in promoting ethical conduct of research and educating UK students and employees regarding research misconduct regulations, data ownership, and animal care regulations.
Investigational Drug Service www.hosp.uky.edu/pharmacy/ids/default.html	(859) 323-2894 (859) 323-2049	The IDS provides the support needed to assure safe and efficient conduct of clinical drug trials including compliance with federal, state, and Joint Commission on Accreditation of Healthcare Organizations (JCAHO) requirements regarding investigational drugs. All inpatient studies are required by Hospital policy to utilize the Investigational Drug Service.

CONTACTS FOR CLINICAL TRIALS

<p>Proposal Development Office GOT GRANT? http://www.research.uky.edu/pdo/ Grants Bulletin http://www.research.uky.edu/faculty/bulletin.html Subject Related Mailing Lists http://www.research.uky.edu/aspnet/vsprojects/pdoprojects/subjectmailinglist.aspx</p>	<p>(859) 257-2861 (859) 323-1464</p>	<p>The Proposal Development Office (PDO) is a support unit that focuses on the pre-award stage of extramural funding. Staff members conduct funding searches for specific projects that researchers wish to pursue, assist in the preparation of competitive proposals by reviewing and critiquing proposal drafts, providing descriptive material on UK resources, and writing sections of proposals where appropriate. PDO can also link researchers with others on campus with similar research interests for possible multidisciplinary projects. PDO also presents seminars and educational programs.</p>
<p>Center for Clinical & Translational Research http://www.ccts Under the direction of the Associate Provost</p>	<p>(859) 323-5231</p>	<p>Center will provide a centralized infrastructure consisting of key core facilities and services to help investigators, clinicians, and scholars from across the University and the Commonwealth of Kentucky to access the much needed resourcesfor the conduct of high quality clinical and translational research</p>
<p>General Clinical Research Center (GCRC) www.mc.uky.edu/gcrc/</p>	<p>(859) 323-6623 (859) 257-9560</p>	<p>The UK GCRC provides the clinical research infrastructure for investigators to study normal human function, as well as the mechanisms of treatment, and prevention of human disease. The Center is comprised of an 8-bed unit, procedure rooms, a specimen processing laboratory, a metabolic kitchen supported by a research dietitian, a conference room, and a biochemical assay laboratory. GCRC personnel are available to provide expert support in biostatistics, informatics, body composition and functional assessment, and specialized laboratory techniques.</p>

CONTACTS FOR CLINICAL TRIALS

<p>University of Kentucky Clinical Research Organization/ UKCRO www.mc.uky.edu/ukcro/</p>	<p>(859) 257-6462 (859) 257-3240</p>	<p>The mission of the UK Clinical Research Organization (UKCRO) is to provide clinical and/or translational research faculty and staff with the infrastructure and support needed to facilitate public access to clinical trials. Study initiation, regulatory maintenance, study operations and grant management is available on a cost-recovery basis. The out-patient clinic on the 2nd floor of the Kentucky Clinic offers exam and infusion rooms, lab processing area, conference room, secured storage and cold kitchen. Value added services at no cost include marketing to sponsors, development of recruitment campaigns, advertising to volunteers, and educational programs.</p>
<p>Fiscal Management http://www.mc.uky.edu/ukcro/fiscal_man_page.htm</p>		<p>UKCRO website outlining fiscal management of clinical trials.</p>
<p>Kentucky Medical Services Foundation www.kmsf.org/ (Password Protected)</p>	<p>(859) 257-7910 ext (859) 257-8675</p>	<p>Professional service discounts</p>
<p>Patient Accounts</p>	<p>(859) 257-6128 (859) 257-8071</p>	<p>Patient Accounts, hospital billing</p>
<p>Managed Care/Device Studies</p>	<p>(859) 257-9521 (859) 257-2950</p>	<p>Pre-Certification for Devices Studies</p>
<p>Environmental Health & Safety http://ehs.uky.edu/welcome.html</p>	<p>(859) 257-1376 859) 257-8787</p>	<p>The Division serves the University community by providing technical services, education and training, periodic audits, and compliance assistance. See checklist to identify environmental health and safety requirements for research studies and training schedule. EHS provides trainings needed to meet all requirements.</p>

CONTACTS FOR CLINICAL TRIALS

<p>Radiation Safety http://ehs.uky.edu/radiation/welcome.html</p>	<p>((859) 323-6777 (859) 323-4752</p>	<p>This department is responsible for all aspects of radioactive materials use at UK. The radiation protection program includes radioactive materials user authorization, film badges and bioassays, survey meter calibration, radiation safety training, radioactive waste handling, and purchasing of radioactive materials. The unit is also responsible for x-ray and laser safety programs</p>
