Corrections to the LSA and RSA Provider Directories

There are a number of corrections and additions for the 2005-2006 Lexington Service Area Directory. Below are page numbers from the LSA Provider Directory along with the corrected information from that page.

If you have questions or concerns about the LSA, please call the UK-HMO office at (859) 257-8251.

- Page 4, Dr. Stephen Kraman should be listed under Pulmonary Medicine on page 10. Additional corrections on page 4 include the following.
  
  Asthma, Allergy & Sinus
  (859) 323-5365
  
  Allergy
  Leslie Branch, MD
  Jody Holl, ARNP
  Beth Miller, MD
  James Temprano, MD

- Under Specialty Providers, there should be a listing for the Center for the Advancement of Women's Health with the following information.
  
  Center for the Advancement of Women's Health
  Kentucky Clinic
  (859) 323-3900

  Women's Health
  Deidra Beebear, MD
  Lynne Jensen, ARNP
  Jan Gross, ARNP
  Sharon Locke, ARNP
  Robin Meek, MD
  Hatim Omar, MD
  Kittye Roberts, ARNP
  Lisbeth Selby, MD

  Rheumatology
  Leslie Crofford, MD
  Robert Lightfoot, MD
  Julia Popham, MD
  Katherine Temprano, MD

  The phone number for Family Practice, under Primary Care Physicians, should be (859) 323-6371.

- On Page 10, the phone number for Pulmonary Medicine should be (859) 323-5365. The following doctors should be added under Pulmonary Medicine.

  Bensadoun, Eric, MD
  Buch, Ketan, MD
  Kraman, Stephen, MD
  Mannino, David, MD

- The Kentucky Women's Health Research Registry was created to help women and medical professionals learn why diseases affect women differently than men. By volunteering, women make a crucial and powerful contribution to women’s health care, improving the health of future generations through advanced, focused research. In addition to providing an epidemiologic data base to evaluate associations between exposures and disease, the registry will facilitate inclusion for women who are interested in participating in research. For more information, visit our website at www.mc.uky.edu/womenshealth or call (859) 323-5709.

A Powerful Contribution to Women’s Health Care

A Powerful Contribution to Women’s Health Care
Pharmacy Program Helps Control Diabetes

The PharmacistCARE team is made up of clinical pharmacists who work as part of the patient’s overall health care team to ensure the best use of medications in the treatment of illness. The diabetes program is offered free of charge to all adult UK-HMO members who have been diagnosed with diabetes. PharmacistCARE programs offer a range of services, including:

- an initial health assessment;
- a comprehensive review of the patient’s medications;
- an individualized medication treatment plan;
- education and training to enhance the patient’s understanding of medication use; and
- coordination of the medication therapy management services with the patient’s other health care providers.

To schedule an initial assessment, call (859) 323-4742.

Non-invasive Treatment with Gamma Knife

Surgery so advanced, it’s not even surgery. The Leksell Gamma Knife® Model C is a non-invasive form of treatment that uses 3-D computer planning from a CT scan, MRI or angiogram to concentrate beams of radiation to target the affected area. Individually, the beams are harmless; together they destroy target cells to treat tumors and disorders. Although some patients may stay overnight, the procedure usually lasts 30 to 60 minutes and almost all patients resume normal activity within a day or two. For more information on the Gamma Knife, call (859) 257-1000.

Health Care Information at Your Convenience

Check out the myCHAinfo Web site, 24 hours a day, seven days a week, to access your health care information at your convenience. Using the site, you may order replacement ID cards; update personal information such as name, address and phone numbers; and view claims status, referrals, and prior plan approvals. You can also participate in the UK Healthtrac Rewards program. To start using this feature, simply go to the www.mc.uky.edu/ukhmo, then move your cursor to your plan (LSA or RSA), and choose myCHAinfo. On this page you will find further information regarding what is available on this site and links to take you there.
